

The ready-to-use cylinder

Safer

Total protection of the regulator valve at all times.
MINITOP is controlled by Air Liquide at each filling.

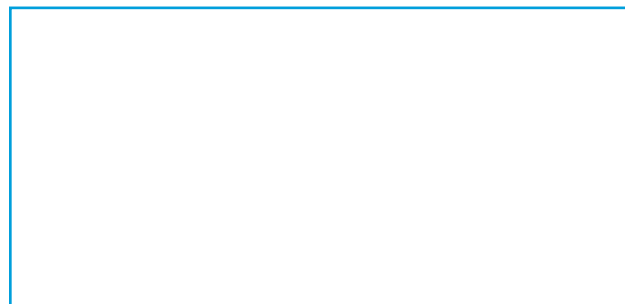

More economical

No lost time – gas level shown at all times.
No waste.
No regulators to buy or maintain.

MINITOP™

The ready-to-use cylinder

www.airliquide.ca

MINITOP

Faster

MINITOP is ready-to-use.
Simply hook-up your torch hoses.

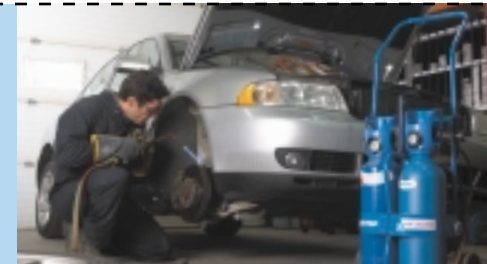

Easier

MINITOP is more portable. You can carry it anywhere.
Level of gas visible at all times.

MINITOP

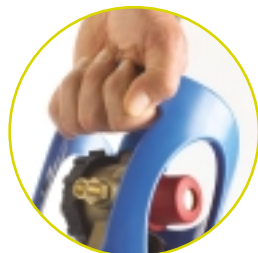

The ready-to-use cylinder

MINITOP, especially adapted for...
Plumbers, Heating and ventilation specialists, Maintenance services, Mechanics, Mobile units, Construction, Emergencies, etc.

Ergonomic handle

Easier to handle.

ON/OFF lever

You can always see if it's ON.
Very easy to open and close.

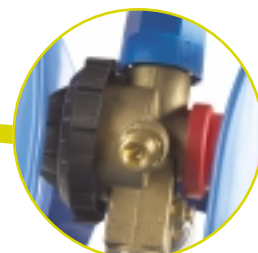

Integrated regulator fully protected at all times

Greater safety for the user.
Tested and inspected by Air Liquide at each fill.

Easy to set

With the graduated knob, you can set and read the operating pressure very easily.

Easy connection

Comes with a standard B-size connection.

Pressure gauge

Whether the lever is positioned at ON or OFF, you can see the level of gas in the cylinder with the glimpse of an eye.

MINITOP, The ready-to-use cylinder!

How much does a small exchangeable cylinder cost?

Cost of a standard size 8 or 9 cylinder	\$ 242.32
Purchase of a regulator (in 10 years, avg 2 @ 120\$)	\$ 240.00
Regulator repairs (in 10 years, avg 2 @ 50\$)	\$ 100.00
Put a price on these situations TIME: manipulation, installation for every use WORRIES: not enough gas to do the job, wrong regulators, broken regulators, regulators stolen, empty cylinders because left opened	\$ -
TOTAL	\$ 582.32
