Cylinder gases, air-fuel,
oxy-fuel products

www.airliquide.ca | www.blueshield.ca | www.optiweld.com | 1-800-817-7697

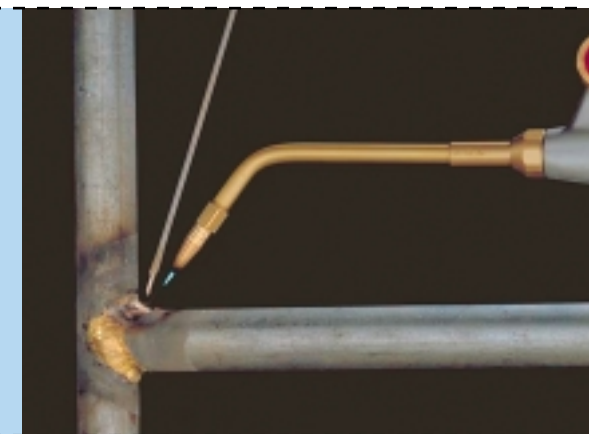

With over 100 years of experience, Air Liquide is recognized as being the leader in industrial gases worldwide.

Our mission: to help our customers improve their productivity, efficiency, quality, safety and reliability.

Air Liquide wants to be your “partner by choice”.

The plumbing / heating / ventilation / air conditioning (HVAC) industry is one of many where Air Liquide’s complete offer of quality products are appreciated.

Industrial cylinder gases

Air Liquide offers its customers its expertise in selecting just the right gas and package for their requirements.

FLAMAL™: Oxygen and Acetylene or **MAPP™** applications, including heating, cutting and welding.

Available in portable packages:

	Oxygen Cylinder	Acetylene Cylinder	
DUO MINI™	Size 4	Size 2 (MC)	Comes with outfit
DUO JUNIOR™	Size 9	Size 8 (B)	With tulip caps
DUO™	Size 16	Size 14	With tulip caps

Safety first!*

- **ALTOP™** and **MINITOP™** cylinders with integrated pressure regulators
- Tulip caps to protect against valve damage
- Cylinder carts that keep cylinders securely locked during handling
- Dedicated CGA 410 connection for acetylene preventing the use of wrong equipment

Nitrogen offered in small cylinders for: purging A/C systems, leak testing, pressure controls, calibration, and cleaning condensate drain lines. **Aluminum cylinders** with tulip caps increasing their manoeuvrability for portable application.

Carbon dioxide (CO₂) for: clearing condensate drain lines or unclogging sinks.

ALMIG™, **ALTIC™** and **ALFLUX™** for welding. Our most popular gases in smaller sizes; shielding gases made easy!

* Ask for our brochures on acetylene and safe transport of cylinders

Air-Fuel & Oxy-Fuel Products

Air Liquide offers a full range of quality products delivering the results you expect in plumbing, heating, ventilation and air conditioning (HVAC) applications.

Some of these products include:

- Air/fuel kits
- A complete line of regulators (for 1-lb cans, oxy-fuel, etc)
- Nitrogen regulators, fittings
- Manifolds
- A complete line of heating tips
- Cutting / heating / welding outfits
- Head and body protection
- Gas accessories
- Filler metals
- And more!

At your service from coast to coast

With over 1,000 points of sale in Canada, you’ll be sure to find an Air Liquide store, distributor or depot location near you.

Air Liquide brings you innovative and safe solutions to cater to your needs. Ask your customer service representative to help select the right gases and complementary products for your applications.
